I'D L

Self-braking descender for rescue, with anti-panic function

Self-braking descender for rescue, with anti-panic function and no gate, that allows descent control, easier movement on inclined or horizontal terrain and positioning at the work station without the need to tie off the device. The anti-panic function only activates if the user pulls too hard on the handle. The I'D L descender has an anti-error catch to reduce the chance of an accident.

Detailed description

Description

- Designed for rescue: no gate.
- Multi-function handle allows the user to:
 - unlock the rope and control the descent with the hand on the free end of the rope
 - move more easily on horizontal or inclined terrain, thanks to the button on the handle
 - position himself without having to tie off the device
- Anti-panic function activates if the user pulls too hard on the handle: it brakes and stops the descent automatically
- Anti-error catch to reduce the risk of an accident due to incorrect installation of the device on the rope
- Pivoting cam facilitates taking up the slack in the rope. Can also be used to make a progress-capture haul system, and for short rope ascents (by adding a FOOTAPE or FOOTCORD foot loop and an ASCENSION handled rope clamp)
- Lowers heavy loads up to 272 kg (only for expert users; consult the Instructions for Use for the device at www.petzl.com)
- Available in two colors: red and black

Specifications

- Min. rope diameter: 11,5 mm
- Max. rope diameter: 13 mm
- Weight: 530 g
- Certification(s): EN 341 classe A, CE EN 12841 type C, NFPA 1983 General Use, EAC
